

Cardio Pulmonary Resuscitation (CPR) Practical Session Only – New Resuscitation Protocols

This Course is suitable for all sites where staff members can be trained in CPR procedures. The course is an ideal method for Management to discharge certain responsibilities under relevant State Occupational Health and Safety Act 2004, Duty of Care. The need for first aid training is further supported by The Occupational Health and Safety Act 2004 107/2004 Code of Practice for First Aid in the Workplace (No 18 1995) which identifies that employers 'should ensure that an appropriate number of suitably trained first aiders are provided'. The code provides practical guidance on meeting the requirements of Section 21 (2)(a) of the Act.

Unit code HLTCPR201A

Unit title Perform CPR (CPR)

Unit descriptor This unit deals with the provision of CPR

COURSE CONTENT

The course content covers the following topics:
